

## Inside Sales Representative/Production Planner

Skretting USA a leading manufacturer of quality fish feed for North America requires an Inside Sales Representative/Production Planner. This position is located near Salt Lake City, at our facility in Tooele, Utah. Our products are sold under the brand name Skretting - [www.skretting.us](http://www.skretting.us)

This position will report directly to the Customer Service Manager. You will work as a customer service team member to provide a smooth, receptive, proactive single contact point for the customer. The purpose of this position is to efficiently handle all telephone, fax or e-mail inquiries relating to Skretting products.

You will also work to ensure that quality product is available as required to meet orders on time. The scope of this position encompasses planning of production through allocation of completed product to customer orders.

The position requires an ability to learn our proprietary software system to provide feed quotes, enter and schedule production runs, track shipments, as well as learn Skretting products in order to match benefits of products to customer needs.

Desirable characteristics include superior people skills, organized, detail oriented, ability to multi-task, effective communicator, and excel at customer services.

A successful applicant will possess a minimum of 2 years of insides sales/customer service experience coupled with good computer skills in Microsoft Office. Background in the aquaculture, state hatchery or feed industry is highly desirable. University Degree in a related discipline is an asset.

A proactive individual can look forward to a competitive wage, excellent benefits and a 401K plan plus significant personal growth as part of a progressive international company in a rapidly growing industry.

Please reply in confidence with a cover letter and resume to:
